WORK EXPERIENCE

Memking Asset Recovery, Carrollton, Texas

06/2020 - Present

ITAD Specialist

- Successfully transitioned from the IT auditor to ITAD Specialist. Showcasing expertise in the full lifecycle of IT assets, from client setup and troubleshooting to secure disposition.
- Designed and implemented a custom solution for data destruction of incoming IT assets.
- Collaborated with cross-functional teams to optimize asset utilization, extending lifecycles and maximizing return on investment.
- Leveraged IT expertise to drive successful procurement strategies, identifying and acquiring valuable assets for the company.

Mercat Bistro, Harwood International, Dallas, Texas

02/2021 - 07/2021

Sous Chef

- Managed daily inventory, vendor relations, and staff supervision, ensuring efficient resource allocation and optimal cost control.
- Drove profitability by implementing cost-saving measures, negotiating pricing with suppliers, and minimizing waste through detailed inventory control and creative weekly menu development.

PROJECTS

- M.2 data destruction rack
- HDD/SSD data destruction racks
- RaspberryPi automated vivarium for pet tortoise
